ONLINE BILL PAYMENT OPTIONS FOR MORRIS DISTRIBUTING

Melio.com is a website. They are free to use if using a bank account. If using a credit card or debit card they charge a 2.99% service fee. They have offered our customers a one time trial payment by following this link <https://melio.me/morrisdistributing>. You are also welcome to sign up for an account with them but that link will allow a one-time payment to use without an account.

Bill.com is a website many of our customers use. I am not completely familiar with their pricing but they can process payments via ACH/EFT or send us a check.

Payment Network ID (PNI) - 0175888994633222

The above PNI number is a unique number that identifies our Bill.Com account to make it easier for the Customer to connect with Morris Distributing.

Fintech is a 3rd party payment processor. There is no fee as long as you have 3 or less accounts. You would complete an enrollment form and send it back to us with a **copy of a voided check**. We then send it into Fintech for processing. From that submittal date it takes about 7-10 business days for them to setup and confirm the account. Once the account is created with Fintech they will send us an email with a go-live date. Any invoices/deliveries made before that go-live date will need to be paid by cash or check as done previously. Any invoices after that go-live date will be paid automatically via ACH through Fintech at Net 30 days.

An ACH/EFT can be set up to transfer from your bank account to ours. This would be managed by you or your accountant. All you need to do to start that is to send us a form requesting our bank details. We would complete the form and send it back to you for processing.

Please contact our Accounting Department if you have any questions.
